

1/20

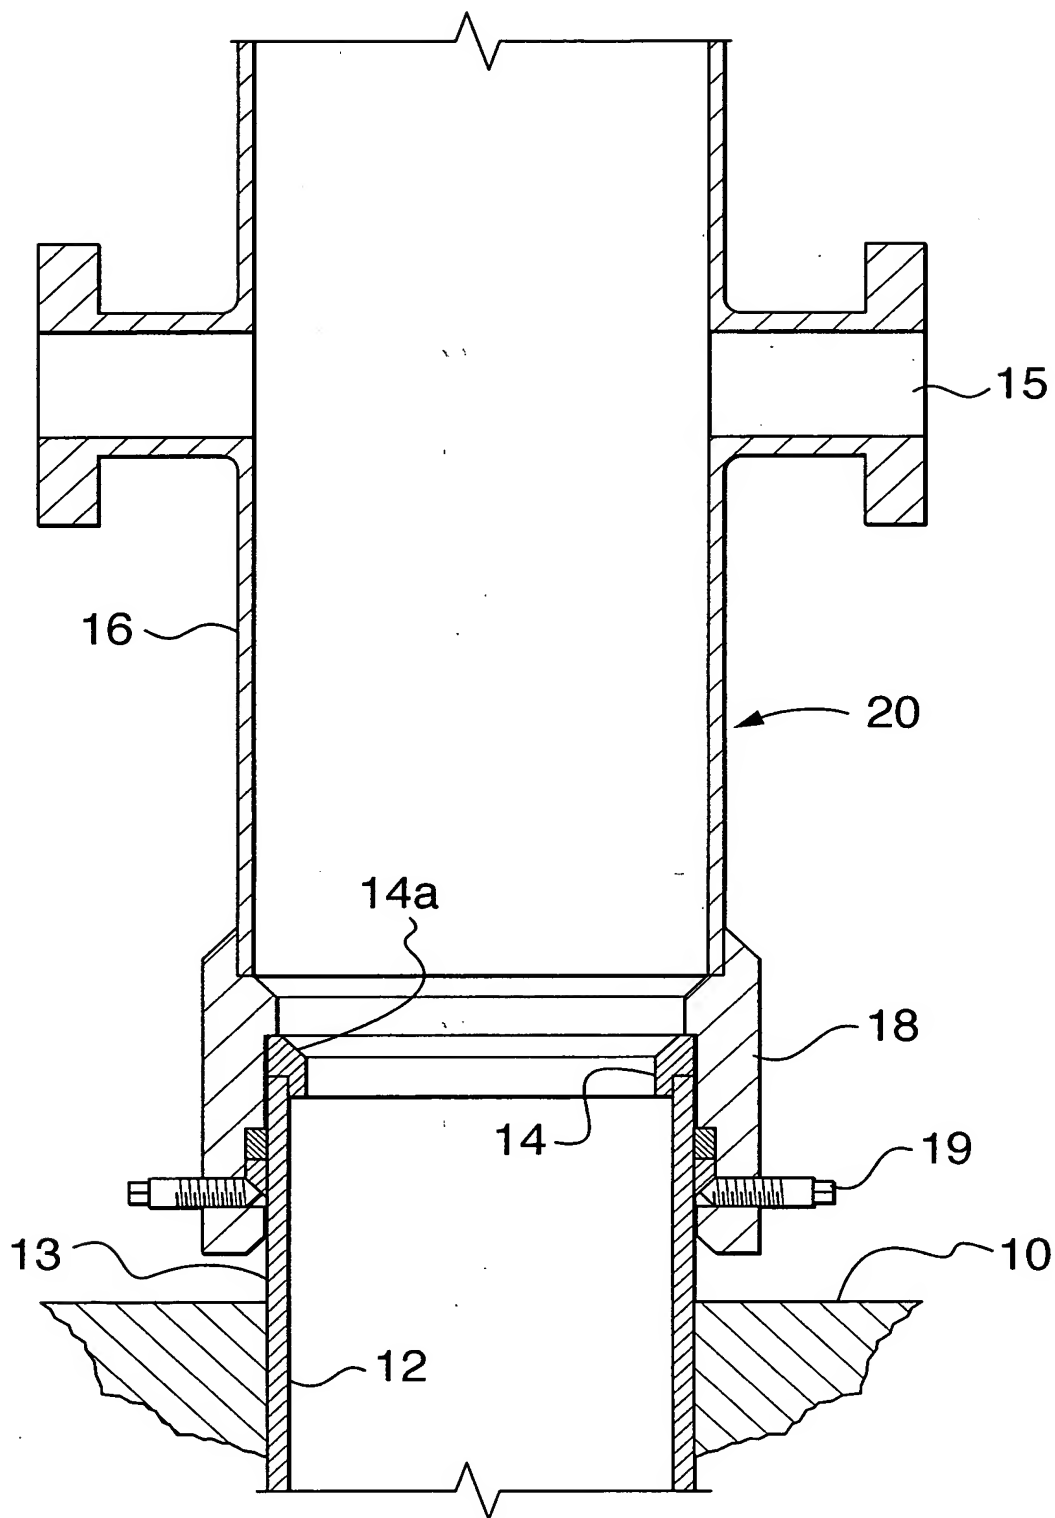

FIG. 1

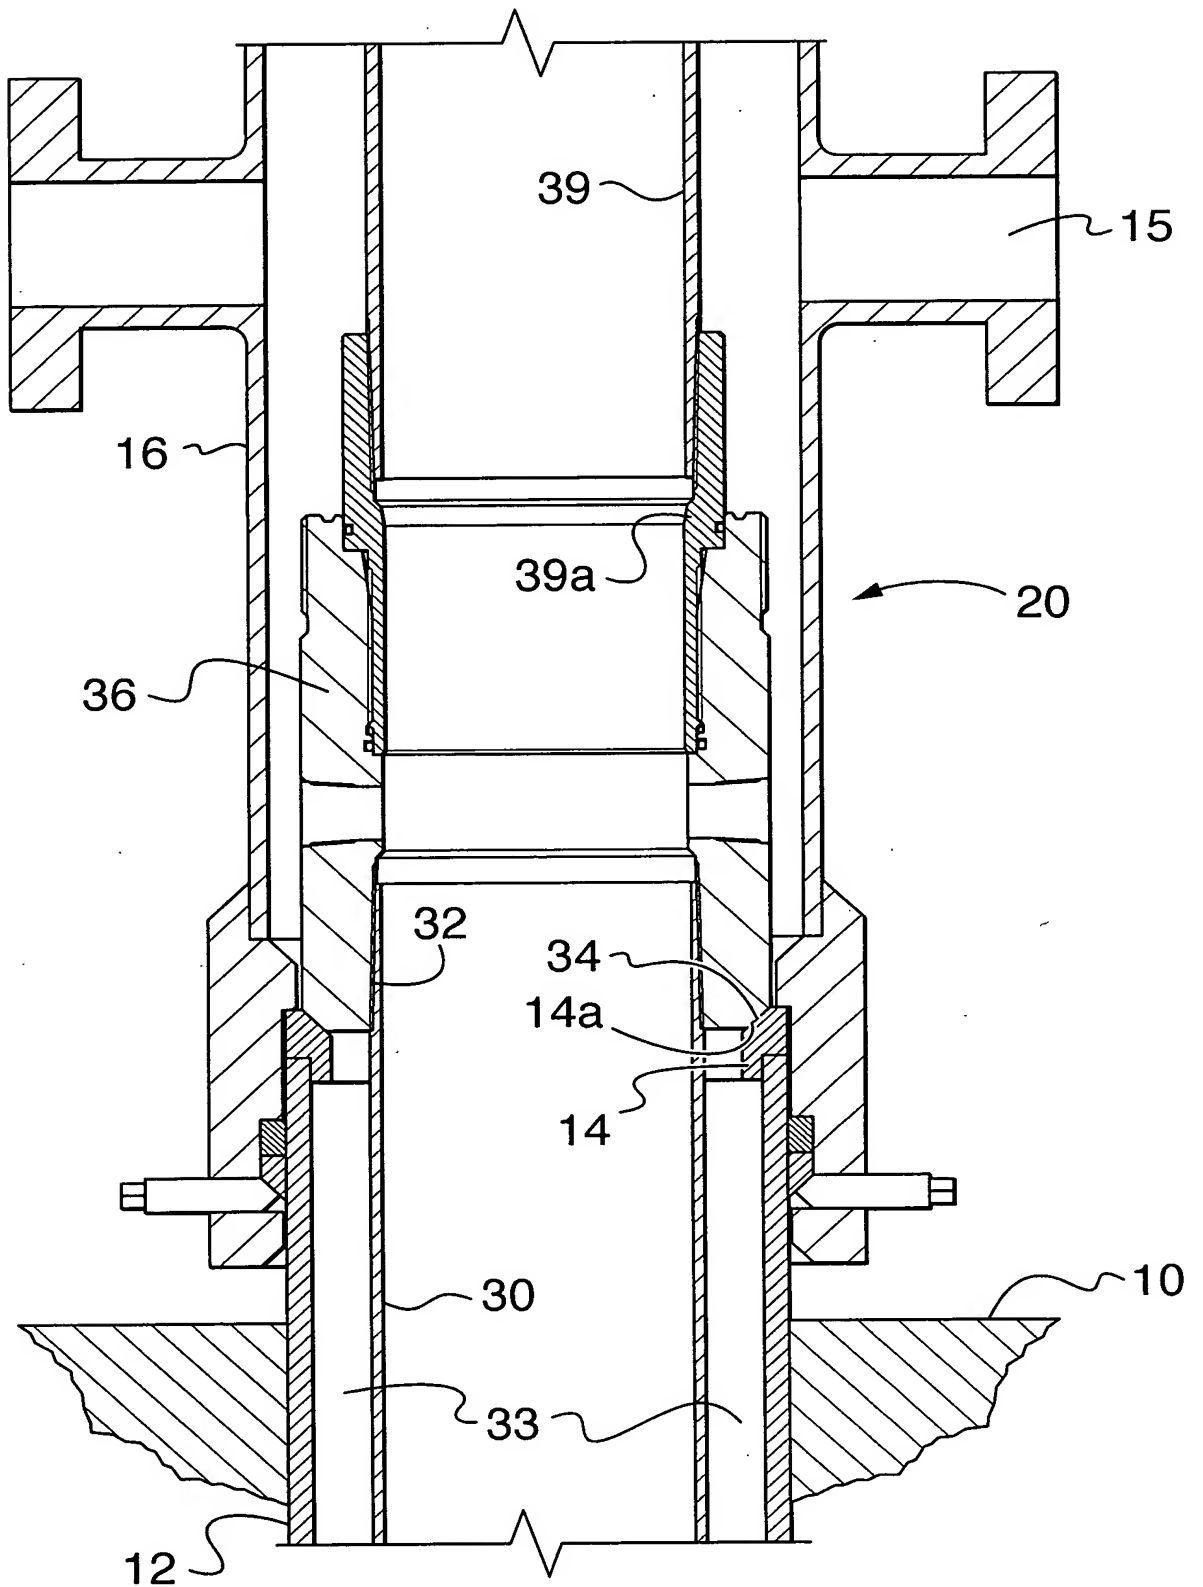

FIG. 2

A cross-sectional view of a container assembly. The assembly includes a lid (16) and a base (18). The lid (16) is positioned above the base (18). The base (18) has a central opening. A component (19) is shown passing through the base (18) and the lid (16). The component (19) has a flange or head on one side and a threaded end on the other. The lid (16) is shown with a break line at the top, indicating it is a partial view.
